

Application to Record (or Update) Donor Details on the Human Assisted Reproductive Technology Register (Voluntary Scheme)

When to use this form

This form collects information about people who donated sperm, eggs or embryos to a fertility service provider **before 22 August 2005** for use in assisted reproductive procedures.

Linking donor offspring and donor information

Births, Deaths and Marriages will use the information on this form to establish a link to the details of the people who were born as a result of your donation ("donor offspring"). It is not compulsory to provide any of the information on this form, but the more specific information that you provide, the more likely a link can be made with the details of donor offspring. The most important piece of information to provide is any identifying number or symbol used by the fertility service provider (if that is available). Births, Deaths and Marriages will confirm that number/symbol with the fertility service provider, to ensure it is accurate.

It is important that you advise Births, Deaths and Marriages of any changes to your information. This will ensure that Births, Deaths and Marriages can advise you if a link is established to donor offspring, and that accurate information about you can be provided to donor offspring when they request it.

Restrictions on access to the information

The information on this form is collected and held by Births, Deaths and Marriages. Access to the information will be provided in accordance with the Human Assisted Reproductive Technology Act 2004. Fees apply to the provision of registered information, or for providing confirmation that any information is held by Births, Deaths and Marriages. You can apply to access the information held by Births, Deaths and Marriages about you. The following people can also apply to access that information:

- a person whom the Registrar-General of Births, Deaths and Marriages believes to be a donor offspring related to you, if aged 18 or older (or, if 16 or 17, with the approval of the Family Court); or
- a person whom the Registrar-General of Births, Deaths and Marriages believes to be a guardian of a donor offspring related to you, if the donor offspring is under 18.

You can request that access to the information in this form be restricted in certain ways. There is a space on the form for you to describe the restrictions that you want to apply. Restrictions can be added, removed or changed at any time.

Benefit of counselling

It is strongly recommended that you consult with a counsellor of your choice **before** submitting this form. Counselling helps people to consider the implications of providing and accessing information, and contacting a donor offspring if a link is established. Counsellors can answer questions about how others have approached the issue, and what seems to work best. Counselling may be able to be arranged through your fertility service provider, or with an independent counsellor.
